

SANA FATIMA

Full Stack Developer (MERN)

sanaf8865@gmail.com | +92 305 2229166 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of frontend engineering experience and 3+ years building complete MERN stack solutions (MongoDB, Express.js, React.js, Node.js). Skilled at developing responsive, scalable user interfaces with React.js and Next.js, and at designing and integrating REST APIs on Node.js/Express backends. Comfortable owning features end-to-end — from UI to API to database — with a strong foundation in Git, clean code practices, and OWASP-aligned secure development. Adept at collaborating with cross-functional teams and quickly picking up new frameworks and AI-assisted development tools.

TECHNICAL SKILLS

- **Frontend (5+ yrs):** React.js, Next.js, Redux, JavaScript, TypeScript, HTML5, CSS3/SCSS, Tailwind CSS, Material UI, Bootstrap
- **Backend & Full Stack (3+ yrs):** Node.js, Express.js, REST API design & integration, MongoDB, Firebase
- **Tools & Practices:** Git, Postman, Jira, Figma, VS Code, OWASP Top 10 security practices, AI-assisted development tools

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Digitify Pakistan Limited Apr 2023 – Present

- Develop scalable enterprise web applications using React.js, TypeScript, and Next.js, ensuring high performance and code quality across multiple client environments.
- Design and implement RESTful APIs using Node.js and Express.js, with MongoDB as the primary data store — extending full stack ownership beyond frontend into backend architecture.
- Build and maintain reusable, accessible UI component libraries using Material UI and Tailwind CSS, reducing development time across projects by 30–40%.
- Integrate complex third-party REST APIs and internal backend services, improving overall system interoperability and performance.
- Implement secure coding practices aligned with OWASP Top 10 standards, identifying and resolving vulnerabilities across the application stack.
- Lead frontend architecture reviews, conduct code reviews, and mentor junior engineers, collaborating with distributed teams to ship production-ready systems on tight deadlines.

Software Engineer | Khaleef Technologies Sep 2021 – Mar 2023

- Developed telecom and fintech applications including Cricwick, EasyPaisa MiniApp, Jazz Cricket, MyTelenorApp, MyZongApp, and MyUfoneApp — products used by millions of users.
- Implemented React.js and Redux-based frontend features for high-traffic consumer apps, focusing on performance, responsiveness, and accessibility.
- Reduced initial load times by 25%+ using lazy loading, code splitting, and bundle optimization techniques.
- Built responsive, cross-browser-compatible user interfaces with Bootstrap and CSS3.

Associate Software Engineer | Capital Stake Aug 2020 – Aug 2021

- Redesigned company website using Vue.js and modern CSS frameworks, significantly improving user engagement and visual quality.
- Migrated legacy frontend systems to modern JavaScript frameworks, improving developer experience and long-term maintainability.
- Improved website performance scores and implemented best practices for SEO and accessibility.

FULL STACK PROJECTS

AMPS Platform (CIM ACM) — React, Node.js, MySQL

- Built a centralized admin platform with real-time customer interaction modules, improving operational efficiency by 25%.
- Implemented role-based access control (RBAC) for 500+ users across a Node.js backend, enhancing system security.

Web Sales Platform (Multi-Tenant) — React, Node.js

- Architected a shared multi-tenant system with runtime theming, reducing development overhead by 35% and scaling to 100K+ users across 10+ brands.

Cricwick — Cricket Engagement Platform — React, Redux

- Developed responsive UI components for real-time cricket data serving 200K+ users, improving rendering performance by 25%.

EDUCATION

Bachelor of Science in Computer Science — Namal University (2016 – 2020)

CERTIFICATIONS

- OWASP Top 10 Web Application Vulnerabilities – ARIA Systems (Jul 2025)
- Privacy and Data Protection (P-101) – ARIA Systems (Jul 2025)
- Basic Security Awareness (S-101) – ARIA Systems
